

# DNA Processing Consent Form

Kit/Account # \_\_\_\_\_

Please carefully review and provide your consent to the terms outlined in the DNA Processing Consent. If you decline to provide your consent, as evidenced by this form, your DNA data will not be processed, and therefore, you will not receive your DNA test results.

**I acknowledge and affirm my agreement to the following terms in connection with the services provided by FamilyTreeDNA:**

- I hereby grant FamilyTreeDNA my explicit consent to collect and process my DNA data and other sensitive Personal Information (including, but not limited to, details concerning my ethnicity, national origin, or health history).
- I understand that FamilyTreeDNA will transform my physical DNA sample into digital DNA data, which will be utilized to generate comprehensive reports detailing my ancestral heritage. These reports will be tailored in accordance with the specific test(s) I have selected, encompassing diverse insights such as ethnicity estimates, detailed geographic origins, migratory patterns, and personalized reflections pertaining to my ethnicity, origins, forebears, distinct traits, and attributes.
- I understand that FamilyTreeDNA will store any unused portion of my DNA sample in their CLIA-certified facility. We may contact you if a re-analysis of your sample becomes necessary. If you wish to have your sample destroyed after it is processed, please contact Customer support.
- I am aware that FamilyTreeDNA may extend invitations for voluntary participation in optional surveys and questionnaires aimed at gathering supplementary Personal Information to enhance the depth of insights.
- FamilyTreeDNA may utilize my DNA data to identify potential relatives within the DNA database. This process involves a comparative analysis of my genetic information with that of other FamilyTreeDNA users who have undergone similar testing.
- I acknowledge that FamilyTreeDNA may use my DNA data in conjunction with details from my family tree and other relevant Personal Information to facilitate the exploration of additional ancestral information. This may include shared ancestors among fellow FamilyTreeDNA members. The insights acquired can significantly contribute to constructing a comprehensive family tree, tracing the construction of a comprehensive family tree, and tracing ancestral migration paths.
- I acknowledge FamilyTreeDNA's commitment to maintaining consistent quality standards and continuously enhancing its product features and services.
- I authorize the potential use of my DNA data by FamilyTreeDNA in the development of new product features and services, potentially extending to wellness and health-related domains.

By consenting, I confirm that I've read and understood how my DNA data and sensitive information are collected and processed as outlined in this notice. For further details, please visit [www.familytreedna.com/legal](http://www.familytreedna.com/legal) to review our Terms of Service and Privacy Statement. If submitting a sample that isn't mine, I affirm having legal authorization to give consent for this person. I consent to the collection and processing of my DNA data and other Personal Information for:
